Mini Bracket Aluminum Alloy

The mini-brackets are used for short and medium spans of ADSS fiber optic cables as well as Aerial Drop cables. Mini brackets are sized to fit specific ADSS diameters. Standard mini brackets are employed with fitted bushings to provide a good support/groove fit and to prevent the support from damaging the cable. The bolted supports are supplied with galvanized steel bolts to simplify installation with no loose parts.

Features:

Model	Cable dia. (mm)	Materials			Weight
		Bracket body	Bushing	Screw	
0812	8~12mm	Aluminum alloy	Neoprene	Galvanized steel	0.29kg
1015	10~15mm				0.29kg

Applications:

- FTTH access network
- Telecommunication Networks
- CATV Networks
- Data communications Networks
- Local Area Networks
