

ATL-MSSB02

Ratchet Banding Tool for Stainless Steel Tape

The ATL-MSSB02 Stainless Steel Band Installation Hand Tool is an easy and safe way to securely join stainless steel bands around different items. It is an efficient tool; its blade is sharp and strong enough to quickly cut through stainless steel tape with a clean and safe opening. It is a pulling and cutting tool that serves a wide variety of applications: 4 to 26mm wide strap, 0.4 to 0.76mm thick strap.

Features:

Specifications
