

# OSCV-48B

Fiber Optic Vertical Splice Closure (Black)

Vertical Fiber Optic Splice Closure OSCV-48B is widely applied to the splicing, distributing variable optical cables. Is made of high-quality engineering plastic with good strength. It can help splicing, splitting, storage, and management with suitable space, with good water-proof performance. It is suitable for aerial, pole/wall (included), underground environment.

## Features:

Specifications	
Material:	High-impact resistance PP with UV
Dimension (mm)	Φ 146*310.5
Weight	1.3 Kgs
Splice Trays:	4 PCs, each with 12 cores
Cable ports	3 x 18mm and 1 Oval port
Seal	All ports fully heat-sealed
IP Rating	IP68
Mounting	Aerial hanger and pole mounting, 2 Stainless Steel Hoop and 2 Clamp

## Applications:

- FTTH access network
- Telecommunication Networks
- CATV Networks
- Data communications Networks
- Local Area Networks
