

# OFT-BSHM58XX

Square Head Machine Bolt with 1 Nut - 5/8in x (14", 16", 18")  
Hot dip Galvanized.

Reference Picture

The bolt is a galvanized steel pole hardware fitting that allows the securing of aerial distribution cables and drop wires on wood or metal poles. It is used to attach pole line hardware to crossarms, posts and other structures, it has a "cone tip" formed to facilitate nut attachment, supplied with square nut attached.
