Anchoring Clamps

These anchoring clamps are made of an opened conical fiberglass-reinforced body, plastic wedges, and a SS201 bail. The anchoring clamps allow for easy and quick securing of  $\Phi$  6 to 9 mm conductors.

## Features:

Model	Cable dia. (mm)	Materials	Breaking Load	Weight	Span
OFT-CLN 06092.0	06~09mm	<b>Body / Wedges/ Thimble</b> - UV Protected Thermoplastic (PA66 plus Fiberglass), <b>Bail</b> - Stainless Steel	2000 N	94.3g $\pm$ 0.01	50 Meters

## Applications:

- FTTH access network
- Telecommunication Networks
- CATV Networks
- Data communications Networks
- Local Area Networks
