

# OFT-MP10

Heavy Duty Mounting Plate 1½" x 5¼" with 3" Hot dip Galvanized.

The heavy-duty mounting plate **OFT-C3BCS** provides a secure anchor point for attaching the bracket that hold the fiber optic cable along its overhead route. This is especially important in areas where the cable must cross long distances or uneven terrain.

## Technical Characteristics:

| Model     | Body Length | Body Height | Plate width | Plate thickness |
|-----------|-------------|-------------|-------------|-----------------|
| OFT-C3BCS | 123mm       | 25mm        | 35mm        | 3.75mm          |

## Specifications:

- Can be reused or permanent.
- Band sizes. 35mm x 3.75mm
- Size from galvanized bolt 3".
- Heavy Duty Mounting Plate 25mm" x 123mm".
- Made from rolled, high-quality steel.
- Constructed of high-quality steel, hot-dipped galvanized.
