

OSCH-12S

Fiber Optic Horizontal Splice Closure (Black/White)

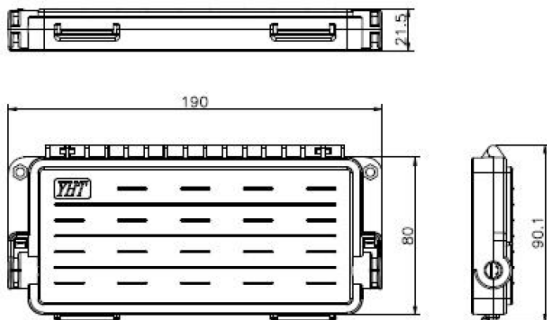

OSCH-12S Mini Inline Fiber Optic Splice Closure — Compact inline closure molded from high-quality ABS for reliable protection of fiber splices in access and distribution segments. A silicone sealing gasket between the cover and the base enhances environmental resistance, helping keep moisture and dust out while maintaining a tidy, secure splice area.

Features:

Specifications	
Material	ABS Plastic
Color	White and black color available
Cable ports	2 Cable ports (1 in, 1 out) 8mm diameter
Fiber Splicing	6 fiber slots for max. 6 Fiber Splicing
Applications	Wall mounted or aerial hang application
IP Rating	IP65

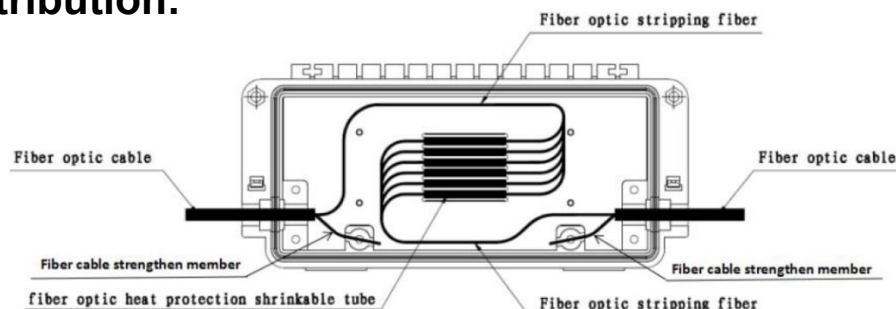

Measures:

Applications:

- FTTH access network
- Telecommunication Networks
- CATV Networks
- Data communications Networks
- Local Area Networks
