

OSCV-48C

Fiber Optic Vertical Splice Closure (Black)

OSCV-48C Dome-Type Fiber Optic Closure — Built from high-quality engineering plastic for excellent strength and outdoor durability. The enclosure offers ample internal space for splicing, splitter integration, fiber storage, and organized routing/management, delivering a neat and reliable distribution point with waterproof performance. Versatile mounting options make it suitable for aerial spans, pole/wall installations (hardware included), and underground environments.

Features:

Specifications	
Material:	ABS, anti UV
Size	288*178 mm
Net Weight	1.5 Kgs
Splice Trays:	4 PCs, each with 12 cores
Splice Tray Dimension	110*93*10 mm
Cable ports	4 x 18mm
Seal	All ports are mechanically sealed
IP Rating	IP68
Mounting	Aerial hanger, pole mounting, underground

*Pole Mounting accessories are optional

Installation:

Aerial Mounting (Included):

OSCV-48C

Fiber Optical Vertical Splice Closure (Black)

- 1- Fiber Optical Splice Closure
- 2- Hanger
- 3- Steel Wire

- 1- Fixed Plate
- 2- Mounting Plate
- 3- U-Bolt
- 4- Telephone Pole

Pole Mounting:

*Pole Mounting accessories is included.

Applications:

- FTTH access network
- Telecommunication Networks
- CATV Networks
- Data communications Networks
- Local Area Networks
